Rehabilitation Policy

The Management of L2S Engineering Pty Ltd considers its employees to be important assets and to assist in their welfare is committed to providing and strongly supporting occupational rehabilitation for any employee who sustains injury or illness at work.

The company recognises that co-operation between all parties is essential for rehabilitation to occur.

The company, after consultation with injured employees and medical advisers, will develop individual rehabilitation plans and endeavour to provide suitable duties within the workplace for employees during rehabilitation.

Rehabilitation will be offered as an early and integral part of therapy to assist employees recovery and return to full employment on the principle that the workplace is the most appropriate and effective place for rehabilitation.

Joe Czeschka

Managing Director
